

Refractory Charged Air And Finned Heaters

Refractory Charged Air And Finned Heaters

HEATCO Refractory Charged Air and Finned Heaters are made from galvanised plated, mild steel. These are designed for horizontal operation and fitted with fins for better and more uniform heat dissipation.

Applications : heating chambers, convectors.

Type	Wattage	Voltage	Clamping lip at either end (mm)	Overall size (mm)	Connections
RCFH/13	750	230	25	330	
RCFH/15	1000	230	25	381	Brass bolts
